

COMP-COOL NFG 32/46

COMP-COOL NFG 32/46 is a 100% Synthetic blend of polyalkylene glycol (PAG) and esters specially formulated to perform as an exceptional coolant while reducing oxidization and the formation of varnish or other harmful deposits. This blended product offers excellent heat transfer, long life, low volatility, low evaporation and a high flash point. It is an excellent alternative to Sullube 32®, providing equivalent performance and service life in rotary screw compressors.
