

COMP-POE - 46

COMP-POE - 46 is a Fully synthetic polyol ester (POE) premium compressor lubricant, formulated for outstanding thermal and oxidative stability and to be resistant to acidic intake air. It tends to form less varnish under high temperatures than PAG or other synthetics, and allows for extended drain intervals in rotary screw compressors. It is also suitable for centrifugal compressors, vacuum pumps and rotary vane compressors.

PRODUCT DATA SHEET

COMP-POE	46
ISO Grade	46
Specific Gravity	0.89
Viscosity @40°C, cSt	44.4
@100°C, cSt	7.3
Viscosity Index	126
Flash Point, °F (°C)	500 (260)
Pour Point, °F (°C)	-58 (-50)
