SYN-GAS PAO/E 220

SYN-GAS PAO/E 220 is engineered specifically for compressors in natural gas service. It begins with the highest quality synthetic hydrocarbon base stocks, and includes additives chosen especially to defend equipment from wear and the corrosive effects of rust and hydrogen sulfide. SYNGAS-PAO/E 220 has excellent water demulsibility, has a low pour point and a high viscosity index providing reliable performance across a broad temperature spectrum.
