

HCL-LIME 10

PRODUCT DATA SHEET

HCL-LIME 10 is a hydrochloric acid based concrete and calcium remover that contains wetting agents, corrosion inhibitors, detergents, and degreasing compounds.

HCL-LIME 10 is effective in removing concrete, lime scale, barnacles, and other calcium based substances from tools, trucks, concrete mixers, building forms, watercraft hulls, pipes, screens, pumps, heat exchangers, and other equipment and surfaces.

HCL-LIME 10 is designed to penetrate concrete and scale deposits quickly. When used as directed, it can be brushed on, mopped or sprayed. It can be circulated through pumps and exchangers, and parts can be soaked in it. HCL-LIME 10 is non-hazardous, non-toxic and non-flammable when used in proper concentration and in accordance with instructions.

HCL is versatile and can be used in a variety of applications. It is not however, recommended for use on aluminum, zinc, and certain alloys including magnesium alloys.
