

# PAO-GEAR EP-460

**PAO-GEAR EP-460** lubricants is a fully synthetic high performance gear oils enhanced with new generation anti-micropitting additives. The PAO base oil has outstanding oxidation and thermal stability, naturally high viscosity index and excellent low temperature pumpability and fluidity. The additive system not only minimizes scuffing wear, but offers a high level of resistance to micropitting fatigue. High load carrying capability and low sludge formation make this superior lubricant a choice for many industrial applications. PAO-GEAR EP-460 provides maximum protection against rust, corrosion, and foaming. This extended life oil performs very well in extreme environments.

# PRODUCT DATA SHEET

PAO-GEAR EP	460
ISO Grade	460
AGMA#	7 EP
Specific Gravity	0.865
Viscosity @40°C, cSt @100°C, cSt	453 53.0
Viscosity Index	180
Flash Point, °F (°C)	490 (255)
Pour Point, °F (°C)	-65 (-54)
FZG Gear Test rig, A/8, 3/90, DIN ISO 14635-01, scuffing load stage	12+
