

PAN AMERICAN LUBRICANTS

Pan American Lubricants include high quality mineral oil or full synthetic base stocks, formulated with additives for corrosion prevention, extreme pressure performance, extended life, washout resistance, high flash points, low pour points, and other criteria to meet other job-specific requirements.

Our NSF Approved products each bear the NSF logo and registration number on the label and in their documentation.

FOOD GRADE

Pan American Lubricants Food Grade Products are NSF Registered food grade lubricating oils, heat transfer fluids and greases that are formulated using the finest synthetic or mineral oil base stocks. Our synthetic lubricants are truly full synthetics, engineered for optimum performance reliability and longevity. Our mineral oil based lubricants are highly refined group II or group III base oils, blended with additives selected specifically for the application in which they'll be used.

Release Agents, Divider Oils & Wipe Down Food Grade

MIN-RELEASE Food Grade ISO VG 16, 40 & 68	USP Grade Mineral Oil	H1 & 3H
---	-----------------------	---------

Proofer Lubricants Food Grade

USP-PROOF Food Grade ISO VG 10 & 100	USP Grade Mineral Oil	H1
SYN-PROOF Food Grade ISO VG 150 & 220	Polyalphaolefin Synthetic (PAO)	H1

Oven Chain Lubricants Food Grade

VHT-CL Food Grade ISO VG 220	Polyolester Synthetic (POE)	H1
UHT-BN Food Grade ISO VG 220	Polyolester Synthetic (POE) with White Graphite	H1

Conveyor, Cooler and Freezer Lubricants Food Grade

SYN-CONVEYOR Food Grade ISO VG 22, 32, 46, 68 & 100	Polyalphaolefin Synthetic (PAO)	H1
SIL-SYN Food Grade Available ISO VG 350	Polydimethylsiloxane (Silicone)	H1 & 3H

Hydraulic Oils Food Grade

MIN-HYD Food Grade ISO VG 22, 32, 46, 68 & 100	Mineral Oil w/ Antioxidant/Anti-Wear	H1
SYN-HYD Food Grade ISO VG 22, 32, 46, 68 & 100	Polyalphaolefin Synthetic (PAO)	H1

Gear Lubricants Food Grade

MIN-GEAR Food Grade ISO VG 150, 220, 320 & 460	Mineral Oil w/ EP and Anti-Wear	H1
PAO-GEAR Food Grade ISO VG 100, 150, 220, 320 & 460	Polyalphaolefin Synthetic (PAO)	H1
PAG-GEAR Food Grade ISO VG 150, 220, 320 & 460	Polyalkyne Glycol Synthetic (PAG)	H1

Varnish Remover & System Flush Food Grade

LSC-FLUSH Food Grade ISO VG 46	Polyolester Synthetic (POE)	H1
LSC-VRS Food Grade ISO VG 32	Synthetic Varnish Remover	HX1

Air Line and Air Tool Lubricants Food Grade

PNEUMA-TOOL Food Grade ISO VG 32	Polyalphaolefin Synthetic (PAO)	H1
--	---------------------------------	----

Air Compressors Food Grade

SYN-AIR Food Grade ISO VG 32,46, 68 & 100	Polyalphaolefin Synthetic (PAO)	H1
---	---------------------------------	----

Grease Food Grade

SEMI-PAO Food Grade NLGI Grade 1 & 2	Semi-Synthetic Mineral Oil / PAO Synthetic Base Oil with Aluminum Complex Thickener	H1
SYN-CAL Food Grade NLGI Grade 2	Full Synthetic PAO Base Oil with Calcium Sulfonate Thickener	H1
SYN-UREA Food Grade	Full Synthetic Ester Base Oil with Polyurea Thickener	H1

Propylene Glycol Heat Transfer Fluid Food Grade

PAN AM PROPYLENE Food Grade Inhibited 100% Strength or 50/50 Blend		HT1
