MIN-RELEASE Food Grade

White Mineral Oil Release Agent / Lubricant

MIN-RELEASE Food Grade series are odorless, colorless and tasteless white mineral oil products, offered in viscosities ranging from 20 to 68.

These purified products are naturally anti-oxidative, and provide superior performance in food production & food preparation areas.

Applications for MIN-RELEASE series products include:

- Bread Dividers
- Dough Troughs, Dough Pumps and Dough Chunkers
- Wipe Down and Coating

MIN-RELEASE Food Grade series meet FDA requirements for use where incidental or direct contact with food is possible and are NSF Registered H1 and 3H.
